

Radiant QuikPay

100% local payroll for the small consulting LLC.

IN DEVELOPMENT

QuikPay is on the build queue. The withholding engine, encrypted-SSN store, employer-tax tracker, and W-2 export are scoped; deployment targets a local web app with no network calls in the running application.

WHAT IT DOES

Run payroll for a small number of W-2 employees on one machine. QuikPay handles federal income tax withholding (IRS Publication 15-T) and Ohio income tax, Social Security and the Medicare surtax, FICA-match / FUTA / Ohio SUTA tracking for Forms 941 and 940, year-end W-2 boxes per employee, and owner-draw logging separate from W-2 payroll. Employee SSNs are AES-256-GCM encrypted at rest; the running app makes zero network calls.

KEY CAPABILITIES

Withholding Engine

Federal (Pub 15-T) + Ohio income tax, FICA, Medicare surtax.

Pay Stubs + Ledger

Per-period stub with YTD column, pay-run ledger, CSV export.

Encrypted at Rest

AES-256-GCM SSN encryption; zero network calls when running.

Employer Taxes

FICA match, FUTA, Ohio SUTA tracking for 941 / 940.

Year-End W-2

Per-employee W-2 boxes + employer totals, CSV export.

Owner Draws

LLC owner distributions logged separately from W-2 payroll.

WHO IT'S FOR

- Independent consulting physicists
- Small single-owner LLCs
- In-house payroll without a cloud subscription

- Owner-draw recordkeeping

HOW TO GET ACCESS

QuikPay is not yet deployed. To request a pilot or join the launch list, email info@Radiant-MPC.com.
