

CONTRACTOR TOOL / INSTALLABLE PWA

Radiant QuikFlow

Income, expenses, mileage, and P&L for the single-member consulting LLC.

Who it's for: Built for independent consulting physicists running a single-member LLC whose income is primarily 1099 consulting.

KEY FEATURES

- **Dashboard.**
Income, expenses, and net P&L for the current month and year-to-date, with category charts.
- **Income Tracking.**
Log 1099 payments by payer and category, or import from CSV / Excel with column mapping and a preview step.
- **Expenses & Receipts.**
Log expenses with categories and receipt photos, grouped by client engagement into trips.
- **Mileage.**
Track business miles at the IRS standard rate, tied to the trips they belong to.
- **AI Receipt Scanning.**
Optional Claude-powered scanning auto-fills amount, merchant, and date from a receipt photo — off by default.
- **P&L Reports.**
Month, quarter, YTD, or custom-range profit-and-loss with CSV and PDF export.
